A Message from Those Who Create Jobs...

Dear Mr. President, Senators and Members of Congress:

Credit continues to be a problem for businesses of all sizes - businesses which create jobs. We would like to suggest a step that could inject up to $13 billion into the economy – **at no cost to taxpayers.**

- **Credit unions continue to lend even when banks have cut back;**
- **Credit unions play a vital role in providing capital to underserved communities and small businesses; and,**
- **Credit unions understand the special needs of their business members and can make loans that banks will not.**

We urge you to allow credit unions to expand lending to their business members.
