North Dakota Credit Unions

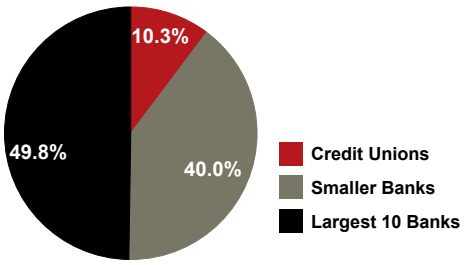
Number of credit unions headquarterd in the state:	38
Estimated number of credit union memberships in the state:	125,348
Memberships in credit unions headquartered in the state:	216,924

A small but significant presence in the community

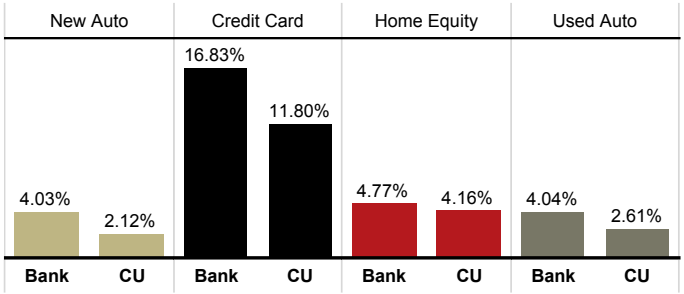
Credit unions represent a growing, but small segment of the state's financial sector. Banks control 89.7% of deposits in North Dakota. Big banks have aggressively expanded market share in the state and represent the biggest competitive challenge to the state's small institutions.

Out-of-state banks control 24.1% of total bank deposits in the state - a share that has increased by -12.2 percentage points over the past two decades.

North Dakota Mid-Year 2015 Market Share of Deposits



North Dakota Average Interest Rates



A better deal for consumers

The lower credit union average new car loan rate shown in the graph results in a savings of $1,274 over the life of a 5-year car loan (assuming an average $30,000 amount financed).

A structural difference that produces big benefits

Credit unions are not-for-profit financial cooperatives and, unlike banks, have no shareholders demanding a market return on their investment. This structural difference allows credit unions to pass profits on to their member-depositors in the form of lower loan interest rates, higher yields on savings and fewer/lower fees.

2015 North Dakota Credit Union Financial Benefits

Benefits arise from Credit Unions providing:

Total Member Benefits $21 Million
