

THANK YOU FOR CHOOSING
THE CREDIT UNION

CATCH THE \$AVE WAVE OR WIPE OUT

Show the youth in your life how to hang loose and shred the save wave by sharing these tips.

- **Make a Plan** – Saving is easier when you set a goal and plan how many weeks you'll need to reach it.
- **Grab the Right Gear** – Rely on the credit union for tools to “hang ten” on the save wave. Savings accounts, automatic transfers to savings, and certificates of deposit make saving easier and prevent wipeouts.
- **Jump in** – Boss savers start out saving their allowance and soon jump into earning money by taking on extra chores or helping neighbors. Promise to put part of what you earn into savings, and it quickly becomes a habit.
