**PAUL KANJORSKI** wouldn't let the big banks shut us out of our credit unions.

**Congressman PAUL KANJORSKI** knows the problems facing working families because he's one of us. He supports credit unions because they allow members like us to be shareholders in our own financial institutions giving loans at reasonable interest rates and investing in our families and local communities.

**So, when national banking interests tried to deny millions of Americans access to our credit unions, PAUL KANJORSKI led the fight to protect us.** He sponsored legislation to protect credit union members' rights to stay in their credit union.

**In uncertain times, there's one thing we can bank on.** Paul Kanjorski will never back down when it comes to protecting hard-working Pennsylvanians like us.
