

Connecticut Median Asset Size By Institution Mid-Year 2017

Connecticut Credit Unions

Number of credit unions headquartered in the state: 100
Memberships in credit unions headquartered in the state: 871,807

A small but significant presence in the community

Credit unions represent a growing, but small segment of the state's financial sector. Banks control 93.5% of deposits in Connecticut. Big banks have aggressively expanded market share in the state and represent the biggest competitive challenge to the state's small institutions.

Out-of-state banks control 42.6% of total bank deposits in the state - a share that has increased by 3.2 percentage points over the past two decades.

Connecticut Mid-Year 2017 Market Share of Deposits

Connecticut Average Interest Rates

A structural difference that produces big benefits

Credit unions are not-for-profit financial cooperatives and, unlike banks, have no shareholders demanding a market return on their investment. This structural difference allows credit unions to pass profits on to their member-depositors in the form of lower loan interest rates, higher yields on savings and fewer/lower fees.

A better deal for consumers

The lower credit union average new car loan rate shown in the graph results in a savings of \$1,680 over the life of a 5-year car loan (assuming an average \$30,000 amount financed).

2017 Connecticut Credit Union Financial Benefits

Benefits arise from Credit Unions providing:

Total Member Benefits \$90 Million
