

Minnesota Median Asset Size By Institution First-Quarter 2017

Minnesota Credit Unions

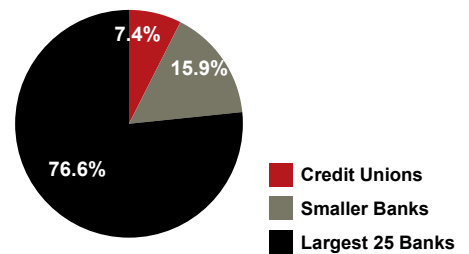

Number of credit unions headquartered in the state: 120
Memberships in credit unions headquartered in the state: 1,695,633

A small but significant presence in the community

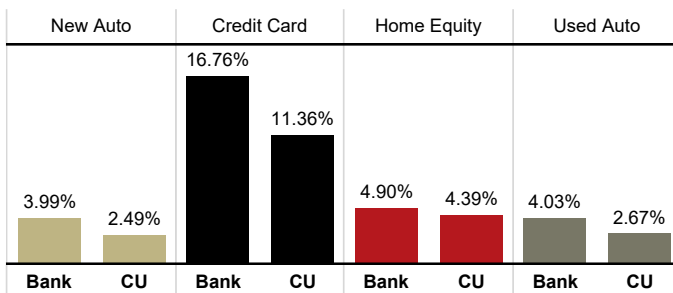

Credit unions represent a growing, but small segment of the state's financial sector. Banks control 92.6% of deposits in Minnesota. Big banks have aggressively expanded market share in the state and represent the biggest competitive challenge to the state's small institutions.

Out-of-state banks control 41.7% of total bank deposits in the state - a share that has increased by 37.2 percentage points over the past two decades.

Minnesota Mid-Year 2016 Market Share of Deposits

Minnesota Average Interest Rates

A structural difference that produces big benefits

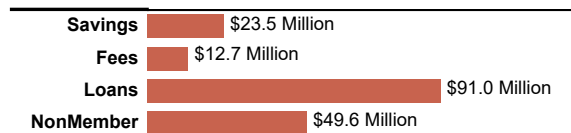

Credit unions are not-for-profit financial cooperatives and, unlike banks, have no shareholders demanding a market return on their investment. This structural difference allows credit unions to pass profits on to their member-depositors in the form of lower loan interest rates, higher yields on savings and fewer/lower fees.

A better deal for consumers

The lower credit union average new car loan rate shown in the graph results in a savings of \$1,005 over the life of a 5-year car loan (assuming an average \$30,000 amount financed).

2017 Minnesota Credit Union Financial Benefits

Benefits arise from Credit Unions providing:

Total Member Benefits \$127 Million
