

Wyoming Median Asset Size By Institution First-Quarter 2017

Wyoming Credit Unions

Number of credit unions headquartered in the state: 29
Memberships in credit unions headquartered in the state: 268,520

A small but significant presence in the community

Credit unions represent a growing, but small segment of the state's financial sector. Banks control 85.9% of deposits in Wyoming. Big banks have aggressively expanded market share in the state and represent the biggest competitive challenge to the state's small institutions.

Out-of-state banks control 54.5% of total bank deposits in the state.

Wyoming Mid-Year 2016 Market Share of Deposits

Wyoming Average Interest Rates

A structural difference that produces big benefits

Credit unions are not-for-profit financial cooperatives and, unlike banks, have no shareholders demanding a market return on their investment. This structural difference allows credit unions to pass profits on to their member-depositors in the form of lower loan interest rates, higher yields on savings and fewer/lower fees.

A better deal for consumers

The lower credit union average new car loan rate shown in the graph results in a savings of \$771 over the life of a 5-year car loan (assuming an average \$30,000 amount financed).

2017 Wyoming Credit Union Financial Benefits

Benefits arise from Credit Unions providing:

Total Member Benefits \$34 Million
