

Now here's a jobs program both Republicans and Democrats can love.

As the American economy continues to fail at creating new jobs, and small businesses continue to have problems securing credit, Credit Unions and their members stand ready to help.

With the assistance of Congress, Credit Unions are ready to extend \$13 billion in new credit to our members who operate small businesses. These new loans will create 140,000 new jobs at no cost to taxpayers.

Help America's Credit Unions and their 93 million members put America back to work. Support The Small Business Lending Enhancement Act (S509/HR1418).

With 58 bills to create jobs pending in Congress, only S509 and HR1418 would create 140,000 new jobs at no cost to taxpayers.
