

Bank Fees
SUCK Money
Right Down the Drain

**Thank You for
Using a Credit Union**

End the Fee Drain

Credit union members have a great alternative to banks:

- Lower interest rates on loans
- Fewer and lower fees
- Higher earnings on savings

These savings earn members an average \$129 a year per household, or \$6.5 billion* a year for all U.S. members. Use fair-priced credit union services, and put an end to the fee drain.
